PROFILE

Dentist-turned-epidemiologist analysing global health data: obesity, diet, cancer and clinical epidemiology. First author in *Obesity*, *Public Health* and *ecancermedicalscience*. Builds reproducible R and Stata pipelines and journal-ready figures, with trend data covering 190+ countries and 35 years. Takes a study from data management and modelling through to the manuscript and submission.

EXPERIENCE

Researcher · Koo Foundation Sun Yat-Sen Cancer Center Mar 2026 - present · Taipei

Validation tools for nursing-workload measurement and oncology patient-acuity assessment; 10 months of weekly workload analytics and reporting for nursing leadership; clinical research design support.

Field Researcher (freelance) · University of Oslo 2022 · Hargeisa field site

Paid field researcher on the Hargeisa school oral-health study (not an author). The fieldwork contributed to *Community Dentistry and Oral Epidemiology* 2024 and *International Dental Journal* 2026.

General Dentist · DAIF Dental Clinic 2022 - 2024 · Hargeisa

Full-time clinical practice. Adjunct lecturer in Oral Histology, Edna Adan University (2024). Co-founder & lecturer, Molar Academy dental-outreach non-profit (2022-2024).

EDUCATION

PhD, International Health · National Yang Ming Chiao Tung Univ. (NYCU) 2024 - present · Taipei

MPH, Nutrition & Dietetics · Amoud University 2022 - 2024

BDS, Dental Surgery · Amoud University 2017 - 2022

CURRENT PROJECTS

- Child and adolescent obesity: global trends by sex and age band, 1990-2024 (in preparation).
- Obesity in Africa: trends across the continent and three age groups (in preparation).
- Global diet quality: dietary trends across age groups, 1990-2018 (in preparation).
- Obesity-related cancers: incidence and mortality trends in relation to obesity, by country and sex (in preparation).
- Scoping review of non-communicable disease research in East Africa (under review).

METHODS & TOOLS

Analysis: R (primary), Stata, SPSS, Python, Joinpoint

Methods: meta-analysis & NMA, AAPC/joinpoint trends, survival, regression, GRADE, RoB 2 / ROBINS-I / NOS / QUADAS-2, PRISMA

Output: reproducible pipelines, 300-DPI journal figures, interactive data visualisation

LANGUAGES

English · Arabic

CURRENTLY BUILDING

Covexe (covexe.com): a browser platform for systematic reviews and meta-analysis, with statistics validated against R *metafor*.
